Project Work

• Bike and PG Rental System: [Link](#)

Created a web application for renting Bikes and Pg. Integrated functionalities for user login and renting using MongoDB, Express.js, and React.js.

• Travel Booking System: [Link](#)

Developed an online travel booking platform with a focus on UI and login functionalities. Utilized React.js for the frontend development. The project is ongoing with plans to integrate additional features.

• Weather App: [Link](#)

Developed a dynamic weather application that provides real-time weather information for any city. It includes temperature, humidity, and weather description. Built with React.js, the app features responsive design, a search functionality that allows users to easily find weather data for different cities.

Certifications

- Certificate of participation in the All India NCAT by Naukri Campus.
- Certificate Of Participation in the Common Internship Test.
- Unlocking the Power of JavaScript by Scaler.
